“Yellow Peril” economical, flexible lower noise tough hard concrete masonry and bricks

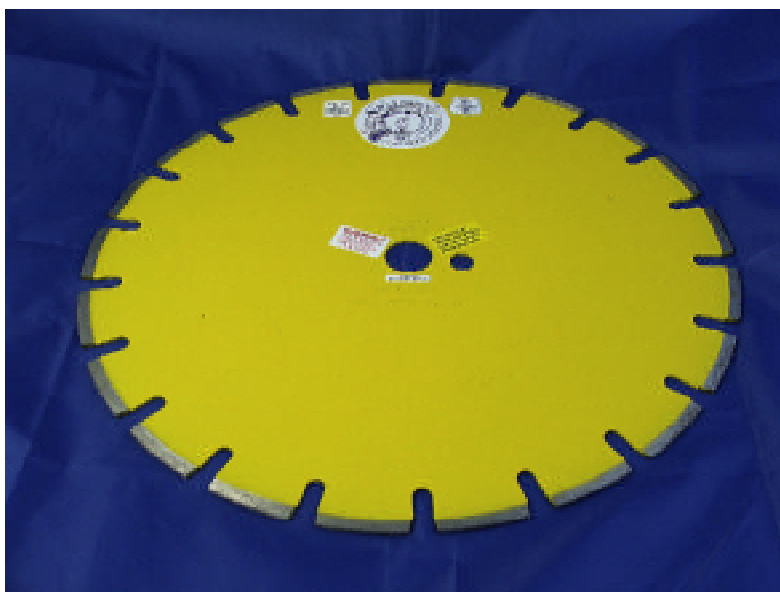

Masonry saws come in a wide variety, so do concrete cobbles, pavers and bricks.

Many paving contractors have wanted quieter, more economical diamond blades for cutting municipal cobbles. “White Witch” answers this call and provides an excellent cutting solution on most masonry and brick saws even with med hard and medium bricks.

Hard and medium hard aggregate concrete cobbles, pavers and blocks can be cut as well as many other high strength masonry materials including bricks. It has a special core to drastically reduce sawing noise.

A special aggressive bond and carefully chosen diamonds work together to provide excellent cutting rates in a wide variety of tough concrete products on typical masonry and bricksaws of about 1 1/2 - 3 h.p.

ISO 9001 quality assures consistency coupled with safety to reduce overall costs.
