“Ossie Red ” wet/dry hard Aussie bricks

“Ossie Red”, as the name implies, is a special wet dry blade for cutting hard Aussie clay bricks.

Built to rigid ISO 9001 standards, “Ossie Red” is better value than ever due to a special heat absorbing design, anti warp cooling holes, wet/dry bond, and engineered for 1 1/2 h.p.to 2 1/2 h.p. brick saws.

Diamond and bond selection has been carefully chosen for a wide variety of Australian clay bricks and the “Ossie Red” is equally at home wet or dry cutting.

It can be difficult to keep up with everything in a business so this blade is intended to create a low cost /high value situation for very busy bricklaying businesses.
