### “ Reo King ” Pro dry cutting turbo tough concrete

Power cut off saws are handy, no doubt about it. No surprise then that they are used to cut concrete product anywhere, and everywhere. Lightly reinforced concrete too.

Not all power cut off saws are powerful 120 cc units. Smaller saws are 60 to 90 ccs.

“ Reo King “ utilises a unique high tech. dry cutting diamond and heat conducting metal bond technology to bring rapid, safer, better cutting costs to the busy concrete worker using a small to medium powered power cut off saws.

Best of all “ Reo King” is designed to be used without water where ever this makes economic sense.

“ Working safer working Smarter”
