“Brickbusta ” low noise high speed wet/dry brick blade

The skilled trade of the bricklayer demands flexibility in the approach to bricking jobs.

Sometimes the wet masonry saw blade approach is a problem. That is where “Brickbusta” comes in very handy indeed.

“Brickbusta” is designed to be used wet or dry on brick and masonry saws and it cuts very quickly.

The low noise high speed cutting action, designed for busy bricklayers, saves time on every job. The ISO 9001 quality of manufacture standard establishes consistency blade to blade.
