“Phantom Gobbler ” low noise very hard concrete cobbles

Masonry saws come in a wide variety, so do concrete cobbles.

“Phantom Gobbler” was developed for low noise fast cutting of most hard and very hard dense concrete cobbles, particularly municipal strength deep section types.

The sandwich noise reducing core combined with state of the art diamond and metal bond technology works together to provide excellent productivity on tough major contracts. Best matched with petrol engined masonry and bricksaws of about 5 h.p. or three phase masonry saws.

ISO 9001 quality assures consistency coupled low noise levels to keep factory and site workers happy.
