

About us

Welcome to the home of Diamond Blademan.

Thanks for visiting us today. High Performance Diamond Technology Ltd has very considerable experience in the New Zealand marketplace specialising in diamond saw blades and other diamond tools for a wide range of New Zealand industries and trades.

Our pleasure in business is gained from satisfying our customers with high performance products, at keen prices; in a friendly, honest and helpful way.

To ensure user satisfaction, we provide considerable technical support, product and safety training, and aim to be at, or very close to the leading edge of diamond tool performance.

Diamond products are manufactured in factories where quality and consistency are vital considerations and the technology used is leading edge, supported by major research facilities.

You can be 100% confident that product purchased from us will be cost effective and will perform to your expectations or we will exchange the blade for one which is 100% satisfactory or your money back.

Yes we do offer a full international service including specialised industry training. Use our "ask us" service to get free assistance fast.

We will keep your email address absolutely confidential.

We will keep any information provided to us absolutely confidential.

We offer telephone credit card facilities: Visa, Amex, Mastercard, for your convenience.

Diamond Blademan pledge

"Your emails, faxes, phone calls and queries regarding operation of our diamond blades will be responded to quickly, civilly and helpfully...

Our technology will be kept up to date with modern trends and we will utilise high quality components in constructing real value for money diamond blades...

Each blade will be supplied with full operating instructions and helpful hints...

Blades will be carefully selected to reflect the budget and operation you have in mind...

Each blade is individually inspected prior to despatch...

Should there be any delay in shipping we will advise you well in advance to allow other arrangements to be made...

Ex stock blades will be shipped the same day as your order (received prior to 3pm)...

Segmented blades are joint strength tested during the manufacture process for your safety...

Should one of our diamond blades prematurely lose diamond section through faulty processing, we will replace the blade free of charge and free of return freight...

Your business is important to us and we will strive to provide you with a level of service and support that is rare in the industry today."
