

Diamond blademan **Resource Centre** Info sheet

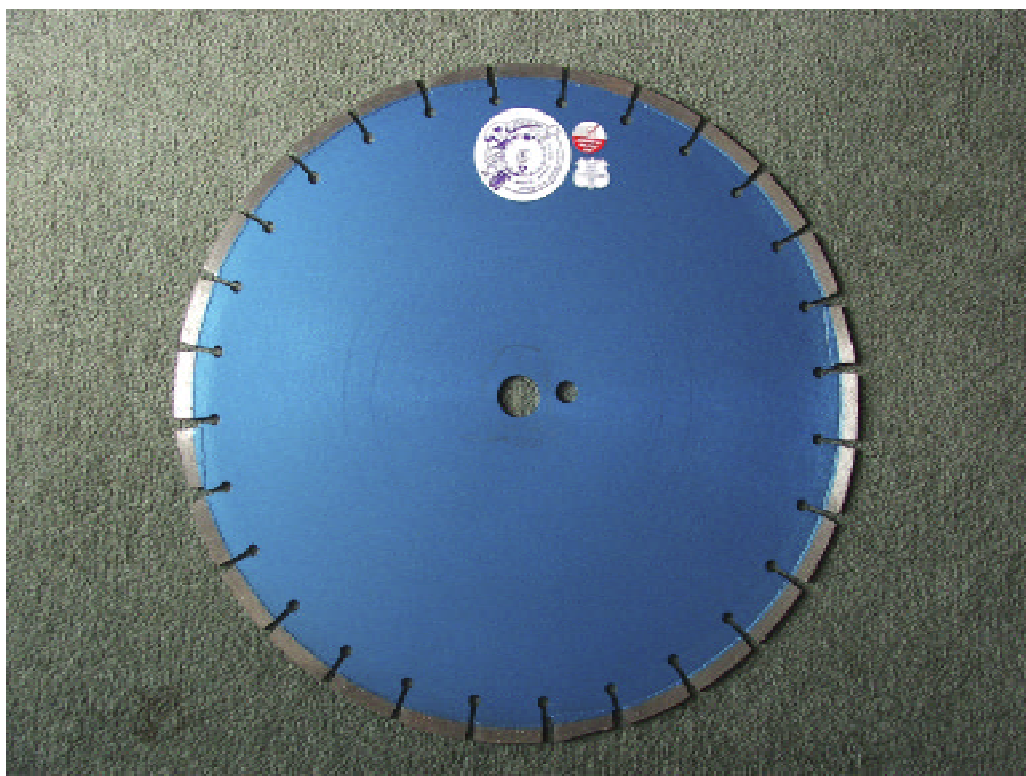

“ DARTH RAIDER ” wet concrete blade power cut off saws

“ DARTH RAIDER ”, has been designed to provide a reasonably priced tool for cutting cured concrete in hard aggregate areas with light reinforcements.

Built to rigid ISO 9001 standards, “ DARTH RAIDER ” is better value than ever due to it's unique design incorporating tough diamonds and aggressive metal bond.

Diamond and bond selection has been carefully chosen for a wide variety of hard aggregate concretes found the length and breadth of New Zealand.

It can be difficult to keep up with everything in a business so this blade is intended to create a low cost /high value situation for very busy concrete workers.

“ Working safer working Smarter”
