

Diamond blademan Resource Centre Info sheet

“Black Hurricane + ” durable asphalt chipseal blade

You may be one of the contractors involved in cutting asphalt and chipseal roads and footpaths for utilities and repairs, using a relatively low horsepower concrete saw 14..25 h.p. (10..20 KW). In which case you will appreciate the performance of our unique “Black Hurricane +”.

Over thirty years of diamond saw blade development work in New Zealand is behind the extraordinary value of “Black Hurricane +”. We have honed features technologies and price to bring you a first rate, economically priced, asphalt blade for your saw. Available in 350 and 400 diameters.

“Black Hurricane+ “ has been developed in conjunction with very experienced professionals involved in day to day cutting of footpaths, roads and driveways all over New Zealand.

You can be confident that this asphalt blade will serve you well in keeping overall costs down.
