“Dark Laser” economically priced asphalt blade

You may be one of the contractors occasionally involved in cutting asphalt and chipseal roads and footpaths for utilities and repairs, using a low horsepower concrete saw 5..14 h.p. In which case you will appreciate the affordability of “Dark Laser”

Over thirty years of diamond saw blade development work in New Zealand is behind the extraordinary value of “Dark Laser”. We have honed features technologies and price to bring you a first rate, economically priced, asphalt blade for your lightweight saw. Cuts green concrete too.

“Dark laser” has been developed in conjunction with professionals involved in day to day cutting of footpaths, roads and driveways all over New Zealand.

You can be confident that this asphalt blade will serve you well in keeping buying costs down.
